

THE PINK CAMELLIA

Interior Design Solutions

To design is to create something out of nothing. To design an idea and bring forth something of value that you'll treasure forever.

Transforming Spaces

About Us

THE PINK CAMELLIA

Interior Design Solutions

The Camellia is treasured as a harmonising element, of both male and female qualities of beauty that reflect on the idea of the beholder.

And who is the beholder? Why our client by all means.

At the Pink Camellia we strive for this very harmony of detail, decor, and a creative outcome to your treasured abode.

Be it your office space, for mindfulness at work, or your home, where you retire after a busy day, which would serve as a secure sanctum.

As the camellia is treasured by nature and humans alike for its beauty and radiating fragrance, we like to bring this harmony to life, at your very doorstep, by our team of designers and craftsmen, keeping in mind your ideas immersed with our plan for your future space.

As humans we long for a sanctuary which blends with our own spirit of ideas. It can be luxurious or spartan, but it's a reflection of who we are. And we are here to assist you in making that vision a reality.

In all aspects we keep in mind your idea, with the realistic aspects of one's budget, one's space and creating something that shall become your inner sanctum of familiarity that you dreamed of.

From the selection of the patterns, colours, the depth of detail, we are here to improvise on your dream that you wish to create.

That's our propose and our intent.

A realm, a space a mindful environment for you.

THE PINK CAMELLIA

Interior Design Solutions

Mrs. Saraswati Vishwanath pioneered her interior design firm when the very notion of design was little known. In a short span, she created a name for herself. After earning a diploma from Memphis State University, she designed bungalows and spaces for multinational companies like Videocon, Sterlite, and Indogerman. Enamored by the cultural aspects of Goa, she aims to impart the same skill to create a niche living space for one's dream abode.

"I love the opportunity to tip my hat to the future design. Our design language is consistently evolving. Designing Spaces is an absolute speciality, It isn't like law and medicine, its a highly personal expression of yourself - a personal and practical statement about living which anybody can make and feel comfortable with I am greatly inspired and influenced by straight forward approach in designing furniture produced by architects/designers like the Hans Dance Wagner, Bosse and Linda Krtz"
